

SAMNOMI

OIL AND GAS

GLOBAL SERVICE

Who We Are

Samnomi Oil and Gas Global Ltd (SOGGL) is a foremost indigenous oil and gas servicing and consultancy firm with deep roots in Nigeria's energy sector. Founded on the principles of integrity, innovation, and excellence, SOGGL has grown into a trusted partner for high-value Engineering, Procurement, Haulage, Front-End Engineering Design (FEED), and Consultancy Services.

With a reputation for delivering complex, multidisciplinary projects, our operations span upstream, midstream, and downstream sectors, driving productivity and performance across oilfields and infrastructure.

Backed by a team of experienced engineers, project managers, logistics experts, and technical consultants, SOGGL is fully equipped to meet the rigorous demands of the oil and gas industry, both onshore and offshore.

Our Commitment

At Samnomi Oil and Gas Global Ltd, we pride ourselves on local content development, aligning with Nigerian government policies by engaging indigenous talent and resources.

We are driven by a vision to be a trusted partner in sustainable energy services, consistently delivering safe, innovative, and cost-effective solutions.

VISION STATEMENT

To become one of the most efficient, reliable, and innovative support systems in the oil and gas industry by pursuing operational excellence, adopting cutting-edge solutions, and aligning with global best practices.

MISSION STATEMENT

To deliver fit-for-purpose engineering and energy solutions by leveraging high-quality manpower, best-in-class tools, and industry-aligned services that meet modern oil and gas standards.

OUR VALUES

- Safety First
- Integrity & Accountability
- Innovation-Driven
- Client-Centric Approach
- Operational Excellence

A photograph of three workers in an industrial setting. One worker in the foreground wears a blue hard hat and a grey checkered shirt. Two other workers in the background wear orange high-visibility shirts and white hard hats, looking at a clipboard. The background shows industrial equipment like pipes and valves.

Our Services

- **Engineering Procurement & Services**
- **Well Head & Well Engineering Management**
- **Mechanical & Civil Engineering**
- **Heavy Equipment Rental (Cranes, Earth-Movers)**
- **Manpower Supply (Skilled & Unskilled Labour)**
- **Petroleum Products Procurement & Distribution**
- **Haulage & Logistics Services**
- **Water Well Drilling & Services**
- **Instrumentation and Control**
- **Engineering Consultancy**
- **Project Management, Monitoring, Costing & Execution**

CERTIFICATIONS & REGISTRATIONS

STRATEGIC PARTNERS

HEALTH, SAFETY & ENVIRONMENT (HSE)

SOGGL is deeply committed to sustainable practices and the well-being of its workforce. Our HSE policies are designed to:

- ☒ Eliminate workplace incidents and injuries
- ☒ Minimize environmental impact
- ☒ Comply with international safety standards and local regulations

SOGGL

We integrate HSE consciousness in every layer of our operations, delivering services responsibly and ethically.

SELF SUSTAINABILITY

We are proud to report a 92.5% Self-Assessment Rating (SSR), reflecting our strong commitment to international ESG standards, sustainability, social responsibility, and good governance.

We have reduced greenhouse gas emissions by 15% through cleaner energy use and process improvements. All offices now operate on solar power during power outages.

Policy

Human Rights Policy Statement

At SAMNOMI Oil and Gas Global Limited, we are committed to upholding human rights across all operations. Guided by the UN Guiding Principles, International Bill of Human Rights, and ILO standards, we promote dignity, fairness, and respect for all individuals.

We strictly prohibit discrimination, forced or child labor, and uphold freedom of association and indigenous rights. This policy applies to all staff, contractors, and partners, in Nigeria and globally.

Responsible Business

By embedding human rights in our processes, we ensure sustainable growth, protect vulnerable groups, and maintain responsible, ethical operations.

A photograph of several stacked oil barrels, showing their dark, rusted metal surfaces and circular openings. The barrels are arranged in rows, with some in the foreground and others receding into the background. The background is a blurred green, suggesting an outdoor setting with foliage.

Engineering, Procurement, and Construction (EPC) Services

We offer end-to-end EPC solutions, ensuring project delivery from design to commissioning:

- Conceptual and Detailed Engineering Design: Structural, mechanical, and civil engineering services tailored to oil and gas infrastructures.
- Procurement Services: Local and international sourcing of equipment, materials, and systems with full compliance with industry standards.

Construction & Installation: Fabrication and erection of pipelines, manifolds, flow stations, platforms, and industrial plants.

- Project Management: Comprehensive oversight from planning to execution, with strong emphasis on quality, budget control, and safety.

Oilfield Support and Maintenance Services

We provide technical and operational support that enhances the lifecycle of oilfield assets:

- Pipeline and Flowline Construction & Repairs
- Wellhead and Facility Maintenance
- Cathodic Protection & Corrosion Control
- Scaffolding, Blasting & Coating
- Instrumentation and Valve Services
- Inspection and Non-Destructive Testing (NDT)

Engineering Services

The company provides comprehensive engineering solutions spanning design, construction, installation, and maintenance across key disciplines including mechanical, civil, and electrical engineering. Whether for upstream oilfield development, downstream facilities, or infrastructure projects, SOGGL's engineering team delivers innovative, safe, and sustainable designs powered by industry-standard tools and methodologies.

Procurement & Supply Chain Management

Our strategic partnerships allow us to deliver critical materials and equipment efficiently:

- Supply of mechanical, electrical, instrumentation and automation components
- Vendor sourcing and just-in-time delivery logistics
- Turnkey procurement solutions for drilling and production operations

Well Head & Well Engineering Management

SOGGL offers a complete suite of well engineering services covering the entire well lifecycle—from drilling and completions to testing and maintenance. Its experts apply globally recognized practices to ensure well integrity, maximize production, and minimize downtime. Services include wellbore design, managed pressure drilling (MPD), wellhead installation, wireline operations, and real-time data monitoring.

Haulage & Logistics

With a fleet of modern vehicles and strategically coordinated logistics operations, SOGGL provides dependable transportation solutions for oilfield equipment, refined petroleum products, raw materials, and personnel. Every movement is executed with a strong focus on safety, efficiency, and regulatory compliance, ensuring seamless support for upstream and downstream operations.

Heavy-Duty Equipment Rental

The company maintains a reliable inventory of high-performance heavy-duty machinery, including cranes, forklifts, excavators, bulldozers, lowbed trailers, and more. Equipment is available for short- or long-term rental, complete with skilled operators and technical support, to meet the needs of construction sites, oilfields, and industrial facilities.

Manpower Supply & Technical Personnel

We recruit and deploy experienced and certified professionals to meet project demands:

- Provision of engineers, technicians, welders, riggers, HSE officers
- Contract staffing for both onshore and offshore projects

Logistics & Marine Support Services

We support the movement of goods and personnel with reliability and safety:

- Marine vessel chartering (tugs, barges, crew boats)
- Land transportation for personnel and cargo
- Material handling and crane operations
- Equipment leasing (generators, compressors, lifting gear)

Petroleum Products Supply

SOGGL supplies and distributes a broad range of petroleum products including Automotive Gas Oil (AGO), Premium Motor Spirit (PMS), Dual Purpose Kerosene (DPK), and Jet-A1 Aviation Fuel. Backed by a dependable supply chain and bulk storage partnerships, the company guarantees timely and cost-effective delivery to clients across commercial, industrial, and retail sectors.

Instrumentation & Control Systems

The company provides expert design, installation, and calibration of advanced instrumentation and control systems to optimize field and plant operations. Solutions include programmable logic controllers (PLC), SCADA systems, sensors, and automation units, ensuring greater precision, efficiency, and safety in process control environments

Engineering Consultancy

As a trusted advisory partner, SOGGL offers consulting services that guide clients through every stage of their projects—from concept to commissioning. Services include feasibility studies, project scoping, budgeting, risk analysis, regulatory compliance, technical audits, and stakeholder reporting, all designed to optimize outcomes and reduce operational risks.

Project Management

SOGGL provides turnkey project management services, ensuring the successful execution of high-value engineering and energy projects. The team oversees planning, procurement, construction supervision, quality control, risk mitigation, and delivery, ensuring every project is completed on time, within budget, and to exact specifications.

Meet Our CEO

Engineer Samson K. Anomi brings to fore qualitative and quantitative Engineering experience garnered in the Oil and Gas industry for over a decade, with an indepth and vast knowledge across the various fields of Engineering.

He is a graduate of the Prestigious University of Benin(UNIBEN), having obtained a degree in Mechanical Engineering, he sits as the vice-chairman of the Urhobo Progress Union(UPU) Oil and Gas Technical Committee where his team is saddled with the task of overseeing Oil and Gas activities in Urhobo land.

Engr Samson Kevwe is a registered member of COREN(Council for The Regulation of Engineering in Nigeria). Currently he is the Senior Special Assistant(SSA) to the Executive Governor of Delta State on Oil and Gas. Other well known gestures of Engineer Samson K. Anomi are visible in his philanthropy to all and sundry
